

Disability Equality Training

Disability Action Training Service is a social enterprise that delivers quality disability training. Our training covers all disabilities and is delivered by trainers with disabilities. We are able to bring a wealth of knowledge and experience to the training as well as invaluable ongoing support. No other organisation in Northern Ireland can offer this extensive service.

Overall Aim: To encourage participants to think about disability differently

3 hour training programme

Objectives:

- To give participants a better understanding of the impact of society on people with disabilities
- Enable participants to be more comfortable communicating with people with disabilities
- Provide information on the rights of disabled people

6 hour training programme has an increased organisational focus

Objectives in addition to above:

- Give the organisation a better understanding of the impact of society on disabled people
- Devise personal / organisational actions and examine how disability impacts on your organisation

We use a variety of training methods to make our training programmes as interactive as possible. These include DVDs, quizzes, handouts, group work and case studies. Each participant receives training materials for the session as well as reference materials for future use. All our training sessions are fully accessible.

All our training is based on a business case that believes that employing the right person for the job, regardless of disability, and expanding your customer base can only be good for business. We would like to help you in achieving this positive change.
